

SIVANANTHAN S

Senior Quality Analyst – LiDAR & 2D Annotation

Tamil Nadu, India | 9709883785 | sivananthansubbramaniam@gmail.com |

linkedin.com/in/sivananthan-s

PROFESSIONAL SUMMARY

Senior Quality Analyst with nearly 2 years of experience in LiDAR and 2D dataset validation for AI/ML training projects. Experienced in team supervision, escalation handling, and final dataset approvals. Consistently reviews 1800–1850 frames per day while maintaining strict quality benchmarks. Improved team productivity by 10% and reduced recurring annotation errors by 5%. Maintains 95%+ client acceptance rate. Additionally experienced with GIS tools including QGIS and ArcGIS for geospatial data visualization and analysis.

CORE COMPETENCIES

- 3D LiDAR Cuboid Validation
- 2D Bounding Box & Polygon QC
- Final Dataset Approval
- Root Cause Analysis (RCA)
- Team Supervision & Training (10 Annotators)
- Escalation Handling
- GIS Data Visualization (QGIS, ArcGIS)
- Productivity & Quality Reporting (Excel)

PROFESSIONAL EXPERIENCE

Indium Software – Senior Quality Analyst (Nov 11, 2025 – Present)

- Lead quality validation for LiDAR and 2D datasets used in AI/ML model training.
- Review 1800–1850 frames daily while maintaining strict quality benchmarks.
- Perform final dataset approval before client submission.
- Handle client escalations using structured root cause analysis.
- Supervise 10 annotators, improving team productivity by 10%.
- Reduced annotation error recurrence by 5% through corrective feedback.
- Maintain 95%+ client acceptance rate across delivered datasets.

Apexon – Quality Analyst (July 2025 – Nov 5, 2025)

- Managed quality control for autonomous AI dataset annotation projects.
- Trained and onboarded 7 new annotators.
- Led a team of 10 labelers ensuring project accuracy standards.
- Performed cuboid validation and object classification checks.
- Executed final dataset validation before client submission.

Vista Engineering Solutions Pvt Ltd – Quality Analyst (Nov 2024 – Jun 2025)

- Audited AI training datasets for accuracy and annotation compliance.
- Ensured precision in bounding boxes and segmentation tasks.

Desicrew Solutions Pvt Ltd – Data Annotator (Jan 2024 – Nov 2024)

- Delivered high-volume 2D and LiDAR annotation tasks.
- Consistently achieved productivity targets while maintaining quality thresholds.

TECHNICAL TOOLS

- deepen.ai
- segments.ai
- GT Studio
- Kognic
- V7
- CVAT
- QGIS
- ArcGIS
- Microsoft Excel

EDUCATION

BSc Costume Design & Fashion
Kaamadhenu Arts and Science College
